Ashwaubenon's Pioneer Elementary School Hosts Family Math Night

Ashwaubenon, WI – February 15, 2012 – Ashwaubenon's Pioneer Elementary School is hosting a Family Math Night on Monday, February 20th from 6:00 to 7:00 p.m. The evening will include fun activities for the entire family that help develop math facts, problem solving skills and critical thinking skills. The event is made possible through a grant from the Ashwaubenon Education Foundation.

In their work with the National Core Standards, Pioneer teachers realize the importance of meeting the needs of all students to achieve acceptable levels of math proficiency. The teachers are working to engage all learners, utilize students' multiple intelligences, close the achievement gap, strengthen the home-to-school math connection and motivate students to love math. The goal of Family Math Night is to strengthen the home-to-school math connection by offering two nights in which students and parents will be actively engaged in math activities. A second Family Math Night will occur later in the school year.

That staff and students of Pioneer Elementary would like to thank the Ashwaubenon Education Foundation for their generous donation to fund Family Math Night. It will prove to be an incredible learning experience for everyone.

For more information, please contact Charlene Frank, Pioneer Elementary School 2nd Grade Teacher, at 920-492-2925 extension 6213 or cfrank@ashwaubenon.k12.wi.us.
