

## COVID-19 Related District wide Response Practices

*Updated August 17, 2022*

On August 17, 2022, the Board of Education for the Ashwaubenon School District are utilizing the following COVID-19 related practices for the 2022-23 school year that will cease, continue, and/or begin:

- The District will cease:
  - Contact tracing;
  - Quarantining for close contacts;
  - Providing online instruction for students that are absent;
  - Operating a COVID-19 dashboard;
  - Requesting information regarding student symptoms when parents call their child in due to illness;
  - Requiring social distancing and social distancing reminder signage within our school facilities.
- The District will continue the following practices:
  - Maintaining a list of positive cases for local health department review;
  - Requiring a 5-day quarantine when student, faculty or staff member is COVID-19 positive, followed by recommending a 5-day (not required) masking period if attending school during days 6-10 of the active case period.
- The District will begin:
  - Relying upon parental communication for at-home COVID-19 test results;
  - Referring parents to the [Brown County Health Department](#) or the [Wisconsin Department of Health Services](#) websites for information regarding COVID-19 symptoms, as well as to our [Common Communicable/Contagious Disease Guidelines](#) document.
- The District makes the following recommendation (not requirement) for families and faculty/staff members:
  - In concert with the Wisconsin Department of Health Services and regardless of our community's COVID-19 level, the wearing of a well-fitting mask around others remains an effective mitigation strategy and can provide added support for our community in responding to the challenges presented by the COVID-19 pandemic if we have:
    - Recently been exposed to someone with COVID-19,
    - Are symptomatic for COVID-19,
    - Test positive for COVID-19.
