

Title I AfterSchool and Summer School Program

Students in grades K-5 that are eligible for Title I services have the opportunity to participate in the Title I After School Program and/or the Title I Summer School Program.

The main goal of the after school and summer programs is to continue to develop and strengthen students' literacy skills. Students work on these skills through guided reading, interactive writing, word study, the computer program SuccessMaker, and listening to teacher read alouds.

After School Program	Summer School Program
