Staff,

To help reduce the number of logins to our many systems, we've enabled a Google login feature on our website. This feature allows you to get to the secure For Staff section of our website and to manage any webpages you may have, including teacher pages, by either logging with your work Google account or already being logged into your work Google account. In addition, your old login still works too!

This change is effective immediately.

To login to the secure parts of our website with your work Google account, or if you're already logged into your work Google account, click on the orange **Sign In with Google** button as shown here:
