

Student Co-Curricular Activity Fee Form

The fee schedule below for participation in athletics and activities has been established by the school district. All students who participate in extracurricular programs must pay an activity fee PRIOR to the first performance or participation in an event. Fees may be lessened or waived in the case of severe hardship; the Principal will process and determine all hardship cases.

Please complete this form if your child is participating in any of the designated co-curricular activities identified below. Students may join as many activities as they would like and only need to pay a maximum of \$35 for their district Activity Fee per school year. For example, if a student pays the \$25 fee for a Level 1 Activity, and later participates in a Level 2 Activity (\$35), they would only need to pay an additional \$10 to reach their maximum.
