Ashwaubenon Third Grade Students Making Blankets for Project Linus

Ashwaubenon, WI – December 17, 2013 – Mrs. Anvelink’s 3rd grade class at Valley View Elementary School in Ashwaubenon will be making fleece tie-blankets to donate to Project Linus. The students have been discussing positive and negative character traits found in fables and folktales, so they decided to put some of those positive traits into action during this giving season.

The students will be making the fleece blankets during the afternoon of Friday, December 20th so they can be delivered to Project Linus after school. All of the fleece was donated by students’ parents.

Project Linus has chapters in all fifty states and is continually growing. They collect blankets locally and distribute them to children in hospitals, shelters, social service agencies, or anywhere that a child might in need of some comfort.

For more information, please contact Ashley Anvelink, Valley View Elementary School 3rd Grade Teacher, at 920-492-2935, extension 3309 or aanvelink@ashwaubenon.k12.wi.us.
